

# EREBA 4 - 15

**Range :**  
7 models available

**Range of use :**  
Heating capacity : 4 to 15 kW  
Cooling capacity : 5 to 16 kW

**Use :**  
Packed reversible air/water heat pump with technology Inverter for heating and cooling individual homes or small service sector premises. Ereba can be installed in individual new build housing connected to low temperature emitters (underfloor heating and cooling systems, fan coil type terminal units) or as boiler backup in existing homes.

**Description :**

- Reversible packaged air/water heat pump
- DC Inverter technology
- Hydraulic module with variable speed accelerator pump and expansion vessel
- Crankcase heater as standard,
- Self-adjusting functions
- R410A refrigerant
